SMART LOCK

 Works with SCLAK

-  Bluetooth LE 4.0
-  No internet
-  Wireless
-  European cylinder
-  Keeps physical keys
-  Rechargeable

Motorized European cylinder that transforms any traditional door lock into a smart lock.

Make all your accesses smart - the smarter way to protect your office or home.

Features

- Can be opened with a smartphone and other SCLAK access controlled products.
- Download the SCLAK app from App Store or Google play.
- No wiring required - power supply by rechargeable lithium batteries.
- Can also be opened with a mechanical key.
- Easy installation within a few minutes only.

Accessories

AGP - SMART LOCK can be used with other SCLAK products. All SCLAK products communicate via Bluetooth Low Energy 4.0 and allow access without the need for a smartphone.

Download the App Sclak
